General Report Comments: I found the victim's family, Hezaldean and his mother, who gave me their statements. They own 2 dogs in a rented house with a few tenants. Hezaldean stated that he saw how the incident happened. A fellow tenant of theirs used a bucket of hot water to pour onto one of their dogs, I found one of the dogs named "Max" with a wound on the right foreleg from the shoulder down to the ankle. He stated that the incident happened on the 16th of March 2025 but they only noticed the wounds in the last 3 days, as the dog hasn't shown any sign of being wounded. I spoke to the owner to let me take the dog in to be admitted for treatment, they will settle the bill upon collection. The suspect was found on the property, but a warning note was left on their door to contact me within 24 hours. The dog was signover for treatment.
