General Report Comments: Upon my arrival I met with Paolo, the owner of the property, regarding a male chocolate Pitbullt hree years old which I saw during my inspection and belongs to Natasha Ncala, Paolo's daughter. Paolo informed me that the dog has a tendency to bite and can be very aggrisve towards strangers which is why they keep him on a chain(about 1.2m long) during the day when vehicles are moving in and out, and when visitors arrive. However, the dog is allowed freedom to move around in the yard when everyone is inside the property.

Paolo mentioned that they got Boss as a puppy and do not confine him to a small space. Additionally, he showed me a shoofly spray that they use to spray flies on Boss. The dog appear to be in good physical condion and I did not see any signs of the dog showing stress.
