General Report Comments: When I got to the complex, I went to the victim's unit 12 to get clarity from their helper, Cynthia, as a witness. She stated that she heard the cat crying from her neighbouring unit, and she saw the cat being terrified, and her coat was soaking wet with water over the wall and a splash of pressured water running vertically. She quickly rushed to the cat's rescue and caught the owner of unit 11 holding a hosepipe, and she fetched the cat and took her back to her house. Cyntia said when confronted, the person of interest, she claimed she had a phobia of cats and did not know where the cat came from. She said she later informed her boss about the incident. I also asked to check up on the cat and her afterthought behaviours. She appeared to be in good health and behaving normally.

I then proceeded to unit 11 to confront the owner, but only found the helper there, who gave me the owner's contact details. I phoned the owner to set up an appointment with the owner, Mrs Angela Penangayi to ask her about the whole incident and she claimed to have had motion sprinklers installed and that's why the cat was found in that situation when I asked to come and see the so-called sprinklers she changed her version to admit her actions of spraying the cat with a hose said she did not mean any harm to the cat. She said she will be available on the 7th of May 2025. To follow up
