CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Upon arrival the springboks appeared to be in good condition. They had water and food. Dumisani Chauke who works with the springboks told that the springboks always have water. I also checked were they place water is too far from were the public walks or view the animals and also the water bowls are not big enough for the springbok to sleep inside. The food bowls are made of plastic and are big enough for the springboks to sleep inside. Also they a nearer to the public viewing. The hyenas appeared to be in good condition not thin. There were 2 hyenas which were observed.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

No welfare concerns found - NFA
