General Report Comments: The owner opened the gate for me to come into his house. He owns 3 female dogs that were all in acceptable physical condition. Water and shelter were provided. He admitted that the dogs had run into the street because one of his tenants had left the gate open when they were driving out, which was the cause of the dogs running loose. I suggested partitioning his yard to prevent such incidents from happening, as they have full access to the driveway. I offered to sterilized all the bitches because he said they have another male that they would like to come back and he feels the females miss the him. He agreed to do so in the next week for me to come pick them up on the 9th of July 2025.
