CHECKLISTS

General Report Comments: I found a helper on the property named Prisca, who said he could not let me in without the owner's consent. The owner/s were away, according to her, but she could not reach them on the phone when she tried. I could still see one of the dogs that appeared to be underweight from the gate and was not in good health. I left her a written warning to give to the owner to contact me within 24 hours.
