Comments:	At the time our office received this complaint, there was an active complaint logged in December last year, where we last set up our meeting for today at 09:30. I met Mr Lahree, who had already made some temporary maintenance on the stable facility. The manure was removed, wall panels installed(temporarily), and the concrete floors constructed. The sheep, along with the new goat kids' shelter, was completely built while the holding pen was raked clean. The horse, an adult grey stallion named "Fidel" in question, was reportedly put down by Dr Heleen from the Fourways Equine Clinic on the 20th January 2026. "Destiny", the adult, dark bay mare that was underweight, was booked for a dental check on Saturday, 24th of January 2026. Regular inspections to be conducted. To follow up on the 5th February 2026.
