

INSPECTOR NOTE

Building: UNIT 130 MATUMI SANDS
Street: THE STRAIGHT AVENUE
Suburb: PINESLOPES
Postal Code:
Date: 2026-09-14
Time: 08:58
Inspector: XOLANE MNCUBE

Type: GENERAL
Follow-Up Date: 2026-10-05

Comments: Upon my arrival at the premises, I met with the security guard, Thabo, who informed me that Carika had relocated to another address and that there was no longer anyone residing at Unit 130. The security guard provided me with Carika's contact number, 064-680-4878, and I subsequently contacted her telephonically. Carika confirmed that she had relocated to Meyersdal. I enquired about the cats that had previously been associated with the premises. Carika informed me that she had two cats, namely Luna, an approximately 8-year-old female cat who is sterilised, and Dossen, an approximately 4-year-old grey female cat who is also sterilised. Carika advised that she had given Dossen to another person because the new complex where she resides does not permit her to keep two cats. She further stated that she does not abuse the cats and that Luna is not underweight. I requested Carika to provide me with her current physical address in Meyersdal so that Luna could be inspected. However, she declined to provide the address and instead agreed to send photographs and video footage of Luna. The photographs and video provided are attached to this report for record purposes. Based on the photographs provided, Luna does not appear to be underweight. Carika further informed me that Dossen is currently in the care of Deon, who can be contacted on 072 662 5230. I attempted to contact Deon telephonically to obtain further information regarding Dossen and to follow up on the welfare of the cat. However, Deon did not answer my calls. Further follow-up may therefore be required to establish the current whereabouts and welfare of Dossen.
