General Report Comments: Upon my arrival I met with the owner of the dogs and I introduce myself to him. He showed me his two dogs which had been adopted from the Sandton SPCA. The dogs are not confined they have access to roam free in the front section of the property and both dogs did not show any signs of being distress. The owner of the property is busy renovating his house. The dog head is not stuck through the gate. The dogs seem to be barking normal and after sometime I settled in the yard. The dogs were not barking anymore and I was able to touch them.
