General Report Comments: I found a gentleman named Musa Wailes working as a hawker. He had 9 chickens in a cage on sale to the public. The floor in the cage was dirty and unsanitary for the chickens. Buckets (of 5 litres) were used as water containers for the chickens, with a boulder of rock placed inside to prevent tipping of the bucket. No feeding containers were provided, and the feed is given off the dirty/faecal floor. The cage was in bad repair with projecting chicken mesh wires. A written warning was issued to the worker to give to the owner
