General Report Comments: Upon arrival the dog was found kept inside the house not in the balcony. The owner agreed that he keeps his dog at the balcon between 13:00 and 18:00 but he provide the dog with water. The water bowl was found at the balcon with water even thoughl the dog was not there. i educated the owner that the balcon space is too small to keep a rottweiler dog. He nees to find a property with a gaeden were the dog will have enough space to exercise. He told me thet he takes his dog more than 3 times a day to go in the complex garden were it runs and defecicate. he also takes it once a day for a walk around the suburb. I also educated him that the bars of the balcon are too short the dog might try to jump if it sees another dog and he also need to open the entrance to the balcony so thaat the dog if it is very hot will be able to go inside the house and he agreed. He promised that he will look for another propeperty. i had to give a warning to fix the above concerns. I also educated him about sterilising his dog and he promised to contact me before the end of the month when he has made his decision.
