CHECKLISTS

General Report Comments: I attended to the complaint on Saturday. I conducted an inspection by walking through the spruit park area along the riverbed.

During the inspection, I encountered individuals within an informal settlement. Some were washing clothes, while another was collecting wood for making a fire at his residence. I made inquiries with one individual Thabo regarding the alleged ritual activities. He indicated that, at times people come to the river to cleanse themselves and may slaughter chickens.

I requested that he contact me should such activities occur again, however he indicated that he does not have access to a phone.

I also attempted to contact the complainant times telephonically to obtain more specific directions regarding the exact location of the alleged activities but I was unable to reach Jacqueline on saturday

At the time of inspection no ritual activity or animal slaughtering was observed.

Based on the findings, the matter is hereby closed. However it may be reopened should further evidence or more specific information be provided.
