Comments:	I attended to a call and I could not find the stray cat. I called Lirie and ask her were is the cat and I was informed by Lirie someone else saw the cat and she did not see it. I asked the contact details of the person that saw the cat and I called the person that saw the cat and he stated that he is not situated at this address yet and his not avaiaable to show me the cat but saw it. I further asked the security guard about the sick cat if he saw it and I was told that he never saw it however the are feral cats roaming around the area. I gave him my contact details to call me if he see any injured or sick cat. case closed review when sick cat is identified.
