Comments:	I received a phone call from Mr. Molepe who stated that he had seen my warning notice at his gate. He confirmed that his dog was poisoned on 23 February 2026. The carcass of the deceased dog was taken to Kenvalley Veterinary Clinic. He further indicated that another dog, a cross Ridgeback, survived as it had not consumed the poison. The surviving dog was also taken to Kenvalley Veterinary Clinic for examination . Mr. Molepe advised that a case was opened at Yeoville SAPS; however, he was unable to recall the case number.
