CHECKLISTS

General Report Comments: I found approximately 14 exotic snakes in the owner's bedroom, 3 dogs, 8 arachnids(exotic), and 2 cats. The owner lives with his grandmother in the house along with their pets. He revealed to me that he is trading animals to verified pet snake keepers and arachnophiles. He was keeping the exotic animals in a fair and considerate manner. They had 2 adult dogs that had a skin infection . The owner was issued with a written warning to seek medical or veterinary treatment by vet's opinion within 48 hours
