Comments:	Upon attending to the complaint, I observed that the dog carcasses were placed inside plastic bags. Based on the condition and circumstances, it appears that the dogs may either have died from possible poisoning or from parvo virus infection. I suspect that the carcasses may have been illegal dump by their owners/workers I contacted Pick It Up to arrange for the collection and disposal of the carcasses. I further conducted proactive enquiries within the surrounding area regarding the dumping of the dead dogs however no members of the public were able to provide any information relating to the incident.
