ADEQUATE SPACE AVAILABLE	Yes
CLEAN LIVING ENVIRONMENT	Yes
WATER AVAILABLE	Yes
ADEQUATE SHELTER AVAILABLE	Yes
ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	Yes *** cats poisoned

General Report Comments:

During the initial inspection, I was accompanied by Lorraine, who regularly feeds and cares for the feral cats. She showed me the location where the suspected poison had been placed. I was informed by both Lorraine and one of the cat caretakers that the poison had subsequently been removed from the area.

I was further informed that six deceased cats had been collected and taken to a veterinary practice for examination to determine the cause of death and identify the poison involved. Following a thorough examination, the veterinarian advised that the cats had been exposed to a two-step poison. The veterinarian further confirmed that stomach content samples had been retained for further analysis and that a comprehensive veterinary report would be issued.

I subsequently inspected the premises of Stallion and Safana Panelbeaters. During the inspection, I observed that both properties were equipped with CCTV camera systems. I informed Lorraine that a follow-up inspection would be conducted on Monday, as both businesses were operating with reduced staffing levels over the weekend. I further advised that CCTV footage would be requested as part of the investigation.

ACTIONS

OTHER Pending investigation
