General Report Comments: Both animals were found in good condition . They had food water and shelter . The pitbul did not have any wound s or scars which shows that it have been involved in any fight. The complainant was also available she told me that the dog belongs to her younger brother who is 14 years old and he is the one who does not feed the dog. Everytime the complainant is the one who feeds and provides water to the animals. It happens that she sometimes take some medication and sleep the whole day no one will feed the animals. I had to educate the whole family and the younger brother that they need to take part in looking after the animals.
