General Report Comments: 3 rabbits were found in the property. All the rabbits were kept separate . 2 rabbits were kept in separate hutch and one was roaming freely in the property. The reason for separating was that on rabbits is aggressive towards other rabbits. The aggressive rabbit was surrendered to the Sandton SPCA . The one which was surrendered was kept in a small cage. The other rabbit was kept in an adequate size hutch cage.. The owner also stated that she is movin at the end of Ju'ne and she will be taking the rabbits with her and they will be roaming freely in the proprty and will be sleeping in a biggwer hutch. I also educated her reghsarding sterilisation and she promised to book with her veterinary.
