| Comments:       | <p>The cat was examined by the veterinarian, who advised that it required deworming. The owner was instructed to continue observing the cat's condition and to seek further veterinary attention if any concerns arose. The cat was also sterilized at the Sandton SPCA.</p> <p>After the procedures were completed, I returned the cat to its owner, who was very pleased to have the cat back. I explained the veterinarian's recommendations and advised the owner to contact me if any further issues or concerns arose. I also provided enrichment items and new food and bowls for the cat.No welfare caoncern case close</p> |
