| Comments:       | <p>During my door-to-door inspection, I met with Angelica, introduced myself, and asked whether she had any animals on the property. She informed me that she owned a dog and a cat.</p> <p>I requested permission to inspect the animals, and access was granted. Upon inspection, I found a small mixed-breed female dog, approximately one year old, which had already been sterilized. I also observed a female cat named Maggie, approximately five months old, that had not yet been sterilized. The animals had food, water and shelter no vet treatment required during my inspectionn.</p> <p>I educated the owner on the importance and benefits of sterilization. The owner agreed to have Maggie sterilized and gave consent for me to take the cat to the Sandton SPCA for the procedure . Follow up 22/5/2026 take back the cat</p> |
