General Report Comments: The dog was found inside the property. the dog was found confined at the back , next to the garage. The space was acceptable . The dog was not provided with water. The water which the owner said its for the dog was on the other side of the gate. He told me that he opens the gate at night for the dog to roam around the property and the tenant who comes out early in the morning is the one who does not close the gate . I had to give a warning to provide the dog with water and to make sure that when going out the gate is closed the dog will not go into the street.
