General Report Comments: Upon arrival at the property, I introduced myself to the owner and explained the purpose of my visit. I informed her that information had been received alleging that someone was physically abusing the dogs on the property.

The owner stated that she was not aware of any person physically abusing or hitting the dogs. During the inspection, the dog, Bella, appeared to be in good physical condition and displayed no visible signs of fear or distress.

I asked the owner whether there were other family members residing at or regularly visiting the property. She confirmed that there were and stated that they were comfortable with Bella and had no issues with the dog.

The owner was further educated on animal welfare and advised that, should she become aware of anyone physically abusing, hitting or otherwise mistreating the animal, she must report the matter to the appropriate authorities.

During the inspection, the owner showed me the food and water provided for Bella, as well as food that she was preparing for the dog. She also stated that Bella sleeps inside the house.

Based on the observations made during the visit, Bella appeared to be adequately cared for and in good physical condition at the time of the inspection. No visible signs of physical abuse were observed during the visit.
