General Report Comments: One dog was found in the property. The dog appeared to be in good condition. No welfare concerns observed. The walls appeared to be big enough that the dog will not jump. I spoke to the owner regarding the dog going to the neighbours property and defecate there and he told me that his dog only gets out when they open the gate and they call it back. They will monitor the dog but usually there are some stray dogs which come in the area. I educated him regarding the sterilisation and he told me he is not interested.
