General Report Comments: The 2 dogs were found in good condition. The property is very big. I spoke to the owner regarding the locking the dog in the car boot and he agreed that he does lock them when taking them for a walk. He told me its a 2 minutes drive were he walks them. and the dogs loves that because they appear not to be stressed. I told him that by locking the dog there is not enough ventilation. He also told me that his dog are are used to that and he had to open the boot and the dogs came and jumped into the boot. I had to educate him that when he puts them he need to lay down the the back seats. He agreed to do so and i gave him a warning that in if future he must not do so and he agreed.
