Report/Findings:

The complaint was investigated through which three dogs were noticed roaming freely in the property. The dogs were found to be in acceptable condition with provision of food and water. Shelter and beddings were also noticed. Cages were noticed in the property, however, the dogs were not found inside or any evidence indicating recent caging. The cages were noticed to be fairly clean consequent to inspection. On speaking to the owner, Mr. Fano, he stated that yes he sometimes confine the dogs in cages and only when he has visitors and that does not happen occasionally. Upon several visits to the place, the dogs are always found free roaming the yard. We noticed no welfare concerns warranting immediate action at the

time of inspections. Mr. Fano was advised to sterilize the dogs in future. Further, the society will continue to proactively monitor Mr. Fano's property when in the area.
