INVESTIGATION REPORT

DATE: 30-01-2023 TIME: 17:22 WARNING No _____

Access granted by:

List animals seen: 8x Impalas

1x Donkey
5x Springboks
30x Zebras
60x Blesbok
20x Picock

Concerns	Yes	No
Water available	☒	☐
Adequate shelter available	☒	☐
Adequate space available	☒	☐
Clean living environment	☒	☐
Animal/s chained / tethered / caged	☐	☒
Animal/s in good condition	☐	☒
Veterinary problems / health concerns	☒	☐
Note: Any concerns noted in this table must be explained in detail in the Inspector's report.		

Report/Findings:

The above animals were found at the address and all animals seen were in good conditions. Animals are roaming free in the Resort. The manager informed the SPCA that there is one zebra that is limping and not a donkey. He also mentioned that the donkey is however old. A warning was issued to the manager to call out a vet. Capture

Action taken: (i.e. warning, education, seize, etc) the aforementioned sick/injured zebra for medical attention. Investigation to be followed.

Subject: Eagle waters zebra

Hi Sir

As discussed I was called out today to see to two zebras at eagle waters, we unfortunately we not able to get to them as they were in some thick bush and despite 3 hours of trying they were inaccessible. We will go back again on Monday and try again, it appears on e has a snare of some sort on its foot and the other appears generally sickly and has poor body condition score. I will let you know next week if we succeed in darting them.

Regards
