General Report Comments: The 2 puppies were inside the garage about 6 metres long by 4 metres width
Owner said the puppies gets out underneath the gate thus why she puts them in the garage.
I educated the owner fix the gate and move the puppies out of the garage within 3 days.
Also to get puppy toys, deworm the puppies and vaccinate them.
Warning was issued for the owner to monitor the child not to play rough with the dogs as it can be very dangerous for the child and dogs.
