General Report Comments: 2 puppies were inside the chicken crate about 1 metre long by 90 cm
Owner said he puts them in the chicken crate because he doesnt want the puppies to go out of the gate and be run over by cars.
I educated the owner to get chicken mesh for the gate and never ever put the dogs in a crate.
The owner took the puppies out of the crate immediately and they were free inside his property before i left the yard.

Follow up to be done to see if the dogs are free inside the property
