General Report Comments: All dogs were friendly with the owner.
Owner admitted that the he did punish the dog with a stick because the dog was chewing the wooden gate and got out and chewed wiring for the gate but didnt mean to harm his dog.
Dogs didnot have injuries.
Verbal warning was given to the owner to never use a stick to train his dogs as this is negative punishment .
I advised the owner to take his puppy for dog training and do basic dog training at home using positive reinforcement training methods.
