General Report Comments: There were 2 dogs in the property  
No adequate shelter for 2 puppies, only small wooden box available but not adequate to prevent any weather elements.  
The water dish was empty, a small plastic container.  
I advised the wife to put water for the puppies and get proper water dishes that will not be chewed off by the puppies like the current one.  
I advised the owner to get a kennel or get adequate shelter for the puppies which will protect dogs from all weather conditions and bedding.  
Owner was not co operative at all.  
Puppies appears to have docked tails but its already dried out but no hair on the tip of the tail.  
Owner said he bought the puppies like that..i educated the owners about tail docking and ear cropping that its illegal and if one is found doing it they can be prosecuted.  
I also advised puppy toys.

Follow up will be done to check for proper shelter, sufficient water dish
