CHECKLISTS

General Report Comments: Mrs Moodley told us that vet was happy with dogs and no welfare concerns. We found this hard to believe so we tried several to contact montclair vet but could not get through. we then decided to go straight to montclair vet and when we got there we chatted to the vet Dr Govender and he told us that the adult male dog had to have an ultrasound done and when we asked him about the thin female dog and showed him the photo he confirmed that the adult female dog was not brought in and that she extremely underweight. We then proceeded to Mrs Moodleys property and she was not home and we could not see the dogs. We issued mrs moodley a final warning to take dogs to the vet.
