CHECKLISTS

CONFINEMENT OF ANIMALS	Static Chain - inadequate length	** About 2 metres long
ADEQUATE SPACE AVAILABLE	No ***	Chains short,
CLEAN LIVING ENVIRONMENT	No ***	Lots of old cars, wires
WATER AVAILABLE	Yes	
ADEQUATE SHELTER AVAILABLE	No ***	
ANIMALS IN GOOD CONDITION	No ***	One Female dog had lump
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Female dog with a lump on the abdomen.

General Report Comments: We removed all 3 dogs with a warrant
One tan and white female dog had a lump on the abdomen
Another female appeared to have skin condition.
The owner has old cars on the property over 10 cars and previously in 2020 the dogs used to be chained on the cars without water, no bedding and no adequate shelter for the dogs.
On the 22/06/2022 we still found the dogs on static chains about 2 metres long, the shelter was inadequate and no bedding for the dogs.
The space is small for the dogs because there are old cars parked and dangerous for the dogs.
