General Report Comments: There is only one dog in the property.
The St Bernard appeared to be underweight.
Owner said they took the dog to Northdene Vet in 2022 as he was losing the weight and the vet gave the dog antibiotics as he suspected it has got stress.
I advised owner to feed the dog adequate food and more than once a day because currently he is feeding the dog once a day.
Also to deworm the dog and get tick and flea treatment for the dog.
The dog has got shelter, veranda, no rain can get inside.
Follow up will be done to check on the weight condition and deworming tablets
