General Report Comments: Owner was not there. The girlfriend (Kaylin) was there and she said that the dog broke through the wooden gate. She showed us the gate that needs to be repaired and said they cannot do anything until the landlord does something about it. So, I asked her what is she going to do in the meantime and she said she would either keep the dog inside the house or on the other side of the house. She called Mr Mkhungo while I was there who spoke to me and threatened to sue the society as he said we entered the property without a warrant. Access to the property was granted by the complainant. At no time did we enter his unit which is fenced off.
