General Report Comments: Upon this inspection i was accompanied by Sipho Field Officer .

We hooted and Shouted Lindani came out who is the owner of the dogs . The dogs were in the front yard and he moved them to the back as the property is separated. The dogs are very aggressive towards strangers.

We shared a nature of Complain and he stated it a lie. The property is well enclosed and fenced with bricks. The gate is wooden and you can't see on the other side. The dogs were observed in a good condition and clinically alert. They have access to adequate shelter and water is provided for the dogs. The living environment is clean and hygienic.

There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken in terms of the law. I strongly believe the case can be closed

NFA

In the following weeks we had to visit the property as one dog was shot when the criminals were trying to hijack the owners son. The dog that was shot was admitted for treatment.
