General Report Comments: I was with King on the case.

Upon arrival we met David who is a worker on the property. He then went to call the owner of the house who is Mogie.

Mogie granted us excess to the property. There are three dogs on the property and they are roaming freely. The dog in question is named Yoki. Yoki was observed roaming freely on property and he was sleeping in the sun. Yoki can stand up and walk around the property and he appears to be old (14 years). He is on chronic medication for Muscle relief and the dogs has access to the house at all times.

There two adequate kennels that were observed on the property. The living environment is clean and hygienic. Portable water is provided for the dogs and they have toys. Mogie told me that Yoki like to cry when he want attention and it doesn't happen more often. Yoki most of the times is always in the house due to his age and other two dogs roam around anywhere on property also in the house when they want to.

The garage door was open on inspection and the dogs can enter the house anytime they wish. There are toys as enrichment for the dog's. The owner then told us that the dog's are her babies and when Yoki begins to show suffering she will take the dog to Maryvale veterinarian to be put to sleep .

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken regarding the act.

case closed.
