General Report Comments: I was with King on Inspection

We met with Tyson who granted us access to enter the property . There are three dogs on property that are roaming freely and they have access to water the living environment is clean. There are no feaces observed and they have access to adequate shelter.

Tyson then told us the dogs belongs to his brother . He took us to backyard where the other dog was tethered with a rope that is approximately 2 meters and water is provided. The dog has access to adequate shelter. The dog that is tethered is named Bella. The dog is tethered cos the dog runs outside.

I issued a notice to comply  
Bella was observed on a static chain or tethered with a rope. She cannot express animal natural behavior.

Provide a running chain for your dog within 7 days, so the dog can express animal natural behavior.
