General Report Comments: Eric and myself went to the property.
upon our arrival were met by the owner who let us into the property.
There were 2male dogs and 1 female .the female dog appeared to be little underweight because it was feeding 8 puppies of 7 weeks old but there were 4 puppies left .
There male dog was on 15 running chain because it bites.
We advised the owner deworm the female dog , feed it more food and sterilize.
The other dogs were loose at the back .
The female dog is booked on 23 July for sterilization.
He said he has found homes for the puppies.
