General Report Comments: I was with King On inspection.

We met the owner of the property who introduced himself as Ashish and he granted us access to enter the property.

The dog was roaming around when he granted us access the dog was already at the gate. The living environment is clean and hygienic. The dog has access to portable water and shelter. On my observation the dog was in a good condition and it is roaming freely. The owner further explained that the dog is placed on a chain that is 7 meters long that he showed me when he is washing the dog. He further explained there is are people in the neighbors that are renovating the house. For that reason the dog will bark at the strangers and he can't control them.

There is no contravention of the the animals protection act 71 of 1962 and there is no further actions that can be taken in terms of the Act. I strongly believe the case can be closed.
