General Report Comments: Upon arrival i hooted and shouted. Keiti came out with her mother to the gate and the dog in question was following them.

I shared a nature of complain and they granted me access to enter the property. The dog in question is named Berry and it was observed in a good condition. The dog was roaming freely on property and it has access to the house. The dog in question is a house dog we then went to the house and the dog has it own bedroom.

We then went to the back using a sliding door when i saw adequate shelter for the dog and the dog has toys as to avoid boredom. I observed a cat in the backyard that appears to be in a good condition. Water is provided for both animals.

Keitis mom then explained someone knocked their gate with a vehicle and it has been fixed recently. I then looked at the gate and in my opinion the gate has been recently fixed. She further stated that they will put a dog if she is alone driving out to ensure the dog doesn't escape. As soon as she drives out she ensures that she unchain the dog cos she doesn't wanna lock the dog in the house.

There is no contravention of the animals protection act 71 of 1962 and there is no further actions that can be taken. It terms of the act the case can be closed.
