General Report Comments: Upon arrival i hooted and shouted. A woman came out with her husband who introduced herself as Sethabile.

I shared a nature of complain and she granted me access to enter the property. 5 dogs were observed roaming freely on property and they appear to be in a good condition.

The dogs have access to adequate shelter that can protect the dogs from weather elements and 3 adult dogs are sterilized. 2 puppies are not yet sterilized and according to Sethabile she will will sterilize the dogs when they are a year old.

She further explained to me that most of the times when they open the gate and the puppies wanna run outside. The mother dog will bite the puppies to control them that they dog run through the gate. She bites but not to cause any injuries but it a form of discipline from the mother dog. No dog appears to be injured on this property and they have access to water. The dogs have sufficient roaming space.

I strongly believe the case can be closed. There is no contravention of the Animals Protection Act 71 of 1962 and there is no further action that taken in terms of the Act
