General Report Comments: Upon arrival i hooted and shouted but no response.

I looked through the gate and observed the dog in question roaming freely on a clean living environment.

It came closer to the gate and the wound has healed. The dog appears to be in a good health and clinically alert. There is no discomfort observed.

On my inspection there is no contravention of the Animals Protection Act 71 of 1962 and there is no further action that can be taken. I strongly believe with these findings the case can be close.
