CHECKLISTS

General Report Comments: On Friday 6 September Petra and I went to see the vet who treated the remaining cats on the property. He told us that he treated all 8 cats on Monday. We asked him if he could do full vet reports on those cats. He said no. He did a general check up and treated them to skin conditions. He said he advised the owner what to buy better food and better ticks and flea treatment. Later the same day the owner WhatsApped and called me she said she had taken her cats back for the follow up treatment. She asked me why are we not releasing her cats told her that our vet still needed to check the cats and make full vet report then the managers will make the decision about releasing her cats or not.
