General Report Comments: Upon arrival I met Mathwe and shared a nature of complaint. He granted me access to enter the property and we walked to the main house.

I observed two puppies roaming freely on property. Both puppies are observed in a good condition and clinically alert. The puppies have access to shelter and water.

We then walked to the other corner of the property on the left handside when you enter the main gate. There is an enclosure that the owner build to ensure that mother dog named Sky is safe and the new born puppies. Sky appears to be in a good condition and 8 puppies. The living environment is clean and hygienic. The dogs have access to portable water. The dogs have access to adequate kennel.

In the corner of the enclosure there is a small cage that has four birds. The budgies appears to be in a good condition and have access to water.

Mathwe claimed he know who is the complaint and she has been sending him WhatsApp messages regarding his dogs. I made it clear i don't know the complaint and it against our policy to disclose such information. He then told me that the complaint has two boys and they are always disturbing his peace.

There is no contravention of the animals protection act 71 of 1962. There is no further action that can be taken regarding this case. I strongly believe the case can be closed.
