General Report Comments: Upon arrival i met Juyden and I shared a nature of complaint.

He granted me access to enter the property. The living environment is clean and hygienic as no feaces were seen on property. Two dogs were observed roaming freely and they appear to be in a good condition. Both dogs are clinically alart and have access to shelter. The dogs are house dogs as they sleep in the house at night. Dogs have access to portable water.

The property is separated with a wall and the gate. The dogs dig under the gate if the wanna go outside. The property is separated but not fenced at the back at all as there are lot of trees. I then advised Juyden that they must add a piece of wood or brings underneath the gate as it seems they don't use it all. He told me that he will speak to his brother who is the owner of the dogs.

I issued a notice to comply stating
Kindly ensure the dogs are always confined in your property at all times.

There is no contravention of the animals protection Act 71 of 1962 and there is no further action that can be taken. I strongly believe the case can be closed.
