General Report Comments: Upon arrival I hooted and Njabulo came out. I shared a nature of complaint and he granted me access to enter the property.

I observed 3 puppies that are in a good condition. They have access to adequate shelter and water is provided for the dogs. The living environment is clean and hygienic. Njabulo place bricks on the gate where the dogs normally go out to ensure that they don't leave the property when he is not home.

I observed a mother dog named Xena from a distance. She appeared to be clinically alert and she was in the neighbors yard as one side of this property is not completely fenced.

He then took me to the house where he showed me pellets that he feeds the dogs. He feeds the dogs twice a day and they are in a good condition. I then offered a sterilization and he told me that he want to gather money first and give me a call to set an appointment for him at the SPCA.

There is no contravention of the Animals Protection Act 71 of 1962. There is no further action that can be taken in terms of the act. I strongly believe the case can be closed.
