General Report Comments: Upon arrival i met Roshelle she granted me access to enter the property.

She seems to be so angry at first and the dog in question was roaming in the front yard. The dog appears to be in a good condition and clinically alert. The dog has access to adequate kennel and portable water is provided. The living environment is clean and hygienic.

We then went to the backyard where I observed 2 dogs that appeared to be in a good condition and clinically alert. The dogs are roaming freely in sufficient space and they have access to shelter . Most of the times the dogs are sleep in the house according to Rochelle. Portable water is also provided for the dogs.

There is no contravention of the animals protection act 71 of 1962. There is no further action that can be taken in terms of the act. Case can be closed
