ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Upon arrival i met Stephan and he granted me access to enter the property.

The property is separated into 2 sections to ensure the dogs doesn't run out. He opened the gate as the property is separated to grant me access to the main house. There was a dog named Whitey roaming freely and have access to shelter and portable water is provided. The dog is roaming freely and doesn't appear to be sick. The living environment is clean and hygienic.

Stephan granted me access to the house where i observed a dog named Pam it a swiss Shephard and according to Stephan he got the dog recently. He didn't know what to do as the dog is a puppy and it was howling. The dog appear to be in a good condition having access to water. The dog is now familiar with the living environment and it doesn't howl at all.

There was an african grey that was observed on the cage and it appears to be in a good condition. The bird has access to water and there are enrichments in the cage. The cage is cleaned once a day and the feed was peanuts. I further educated him that he mustn't feed the African grey sunflower seeds as it is not good for their immune system.

There is no contravention of the Animals Protection Act 71 of 1962. There is no further action that can be taken regarding the act

Case can be closed.
