General Report Comments: Petra and myself went to the property.
We were met by Stefan, there were rabbits, chickens, 2 x tortoises, geneapigs, 2x iguanas and ducks. All animals are kept in the fenced off area 20mx 15m wide. They are all living together. One rabbit was injured and was signed over, other one had big lump we gave him warning to take it and it was bought to our clinic and ptsed. He was busy treating other rabbits.
On 16 October we returned to the property after we received another complaint upon our arrival we were met by Godknows, we asked him to feed the animals while we were there. We noticed that there was not enough food for all animals. There was no crushed mielies for chickens there was only rabbits food we sent him email with lot of concerns eg animals fighting, make iguana cage bigger, breeding, correct food for animals.
